Arisha Mumtaz

QA / SQA Intern — Manual Testing Automation Learner
LinkedIn: linkedin.com/in/arisha-mumtaz — GitHub: github.com/Arisha004
Email: arishamumtaz340@gmail.com — Phone: +92-323-2382939

Skills

Testing: Manual, Regression, Functional, Smoke, API Testing
Automation (Learning): Python, Selenium, Cypress, Playwright
AI Testing Tools: Lighthouse, TestCraft, TestRigor, ChatGPT, Gemini
Tools: JIRA, Testworthy, Postman, JMeter
Test Design: Gherkin, Test Case Documentation
Methodologies: Agile, Scrum, SDLC, STLC
Soft Skills: Analytical Thinking, Attention to Detail, Collaboration, Learning Agility

Summary

QA-focused intern with hands-on manual testing experience and applied AI-assisted automation using Lighthouse, TestCraft, TestRigor, ChatGPT, and Gemini. Skilled in test case design, bug reporting, API testing, and test management tools. Learning Python and Selenium for automation while applying Agile methodologies, SDLC principles, and collaborative QA workflows.

Education

BSc Computer Science (6th Semester) — SZABIST, Karachi (2023–2027, CGPA: 3.88)

Experience

QA Intern / UI/UX Contributor → Full-Time UI/UX Designer/Tester — Ally Solutions, Remote
Feb 2026 – Present
- Promotion done based on performance and reliability.
- Executed manual test scenarios and documented defects in JIRA for resolution.
- Performed regression and smoke testing across multiple web applications.
- Applied AI-assisted automation to enhance test coverage and efficiency.
- Collaborated with product and development teams to ensure requirement compliance and quality standards.

QA Intern (Manual + Automation Exposure) — 10Pearls, Remote
Sep 2025 – Nov 2025
- Executed manual test cases and reported defects using JIRA.
- Created and managed structured test cases in Gherkin format using Testworthy.
- Applied API, regression, and basic automation testing for web applications.

Certifications & Training

- AI in Software Testing — Mentored by Ahmed Hassan (View Certificate)
- QA Fundamentals — 10Pearls (View Certificate)
- API Testing with Postman — 10Pearls (View Certificate)
- Test Case Management with Testworthy — 10Pearls (View Certificate)

Projects / GitHub

AI-Assisted QA Assignments — GitHub Repository
Documented AI-supported testing using Lighthouse, TestCraft, TestRigor, ChatGPT, and Gemini. Applied manual test design and automation assignments.

SQA Software Testing SauceDemo Web Application Testing — GitHub Repository
Sauce Demo Website Testing: GitHub Repository
Demonstrated practical knowledge of manual testing.
